Experience

November 2016 - May 2017
Shazam Entertainment Ltd
Junior Regression Tester

May 2015 - September 2015
Rhythm Digital Ltd
Junior Developer

Profile

My main interest is creating unique and memorable experiences.
I specialise in integrating concepts from the physical world into digital products.
Putting the user in the centre of my design approach to create elegant solutions.

University

Created projects from concept to design and development in a range of different technologies.

- Project manager for group projects
- Ran Portfolio Club; a society for side projects

Shazam

Ran regression tests as well as UX testing on new products.

- Trained new members of the team
- Took initiative in liasing with international departments to solve major bugs in production
- Oversaw project reporting using Agile principles.

Rhythm

Provided Graphic Design, Illustration and C++ programming for client projects.

- Produced demo application to showcase new Intel camera technology
- Provided illustration and graphic design work for interactive displays for the V&A and House of European History.

Key Achievements

- "Best in Performance Art" prize at Hacksmiths
- Graphic Designer for Team Romania for Roller Derby World Cup
- Won Best in Game Design on Adobe Generations course

Interests

I am a passionate rollerskater, playing in the roller derby British Champonships. I also coach people learning to roller skate and help clubs by creating promotional print and digital material. In the rest of my spare time I take part in hackathons and crochet clubs.

Skills

Web
HTML 5, CSS 3/4, Wordpress,
Javascript - Node,
PHP and No SQL databases
WebGL and three.js

Design
Adobe Creative Suite
Sketch
Maya/Blender

Native
iOS - Swift
Android - Java
C++ - Cinder

Misc
Agile
Matlab
Postman
JIRA
Git/Gitlab/Github
